About This Game

SWARMRIDERS is a FREE "endless runner"+"twin stick shooter" ARCADE mashup. A "machine gun swarm surfing minigame" made as a bonus content for the UBERMOSH community. 400 years before the events of UBERMOSH:BLACK, the Blade Saint was just a mercenary gunner, shredding eyes on the backseat of a bike.

The most intense Two-and-a-Half minutes of your life.. SwarmRiders is a 100% free very short & small bonus for fans of the UberMosh series in the form of a endless runner, endless mob type deal mashup.

I have no complaints, it's just a very simple and quick free game with a target demographic at ubermosh fans. (Can technically be 100%'d within 160 seconds, assuming perfection upon first try. Took me around 30 minutes)

Music is great and doesn't get too repetitive, which I expected but was glad it didn't.

Solid recommendation to anyone looking to try it out.. I really enjoyed this game as it was something different that branches of from the main series itself. I myself played for ten minutes and got all the achievements, but it was really fun! It's free so don't be afraid to play a little bit of it. The other thing I liked about this game is the OST which is amazing like the other games!. \u2665\u2665\u2665\u2665ing sweet. Amazing soundtrack. So much fun.. Exactly like its sister series, Ubermosh, Swarm Riders is a volatile, frenetic, blast of a time.

Flee from a swarm of voracious insects, all while blasting away as many as you can. How long can you last? Not long.

But don't worry: the game restarts at instant speed so you can try over and over and over again.

Easy to run on a potato, easy controls, 4 simple achievements. No complaints here.. I really wanted to like this game. I really did. Don't get me wrong, I did enjoy my playtime very much but sadly it was just too short of a playtime. This game lacks the idiotic joy and replayability of playing any of the Ubermosh games and the achievements are very easy to get. It's not a bad game in my point of view, just unfinished. Sure it's a free game, but a little more effort could have been warranted.

4.9/10. An alright shot em up game it is more luck than skill though. Had to slow down the game to get the cheevos.. Got all the achievements within 11 minutes.

10/10. **PROS:**

Amazing soundtracks.

Good visual design.

100% achievements.

Easy gameplay.

Controller support.

CONS:

Stuck at full-screen.

No options menu.

Short.

Final judgement: 8.5/10. You have to concentrate and stay focused for a couple of minutes if you want to get a high score. I was surprised by how long I was able to survive. I like what this game does to my brain. Recommended.. Had a lot of fun with this one! Kept playing and before I knew it 1 hour had passed! Prepare to not blink for about 15min and have cocaine injected directly into your heart.

Sometimes it's hard to see what's going on.

9/11
